"Export Compliance Issues for the Research Community"

Presenter: Sarah Schlagter, Sr. Grant & Contract Officer
and Export Control Officer for OSP

Export control regulations set forth rules impacting how we deal with international entities and foreign individuals, both abroad and in the U.S. This session will cover export control regulations and how they impact activities specifically at Cornell University. Topics covered include fundamental research, travel implications, and visiting scholars. We will focus mainly on research and how researchers can interact effectively and legally with the international community.

Feel free to send me your questions about Export Control issues prior to the Roundtable session, so I can provide them to Sarah in advance of the Roundtable.

We look forward to seeing you on July 20th!
