Don't miss the next UIDP Webinar

Avery Dennison Open Innovation

Wednesday, January 20, 2021
Noon to 1 p.m. ET

Avery Dennison is a global materials science and manufacturing company specializing in the design and manufacture of a wide variety of labeling and functional materials. The company is seeking collaborative partnerships with university or industry researchers on the cutting edge of packaging design, with specific interest in three areas:

- Sustainable materials and processes for labels;
- Intelligent Label, where labels can store and capture information and wirelessly transmit data; and
- Digital ID: Provide a unique identification to each label.

With operations in more than 50 countries and 30,000 employees worldwide, Avery Dennison products are used in nearly every major industry. Join us for this webinar about how to partner with Avery Dennison for future materials and products that serve an ever-changing marketplace. Learn more.
