UPCOMING EVENTS

William T. Grant Foundation Informational Webinar: Research Grants on Improving the Use of Research Evidence
June 7th @ 2 pm | Foundation program officers will discuss the background and goals of the program, as well as provide an overview of eligibility details, required materials, and review criteria. There will be a Q&A and practical advice on how to prepare a competitive letter of inquiry will be shared.

Open Science Possibilities for Training and Capacity Building: Perspectives from the Early Career Researcher-Supporting Community
June 12th @ 1 pm | The White House Office of Science and Technology Policy (OSTP) is hosting a virtual listening session on open science possibilities for the early career research community. Learn how the Biden-Harris Administration’s priorities and perspectives on open science in the US and solutions that the US government might implement.

ARPA-H Novel Innovations for Tissue Regeneration in Osteoarthritis (NITRO) Program Proposers’ Day
June 15th | This event will allow for both in-person and virtual participation, and is intended
To facilitate teaming and foster a greater understanding of the new NITRO Program. The closing date for registration is June 8, 2023, at noon EDT.

Cornell NSF CAREER Peer-to-Peer Workshop Series

June 20th @ 10 am | Open to Cornell Assistant Professors who plan to submit a NSF Faculty Early Career Development Program (CAREER) proposal this July 2023. Learn successful proposal writing tactics and receive feedback on your proposal draft. All sessions will take place on Zoom. Pre-registration is required and closes on June 12th.

FUNDING OPPORTUNITIES

If you intend to apply to a funding opportunity, notify your College and/or Department research administrators or the Office of Sponsored Programs and Research Development (OSP).

ARPA-H NITRO Broad Agency Announcement

Abstracts due June 23, 2023 | The Advanced Research Projects Agency for Health (ARPA-H) Novel Innovations for Tissue Regeneration in Osteoarthritis (NITRO) program vision is to make joints heal themselves. To achieve that goal, the Program aims to develop novel techniques for the regeneration and reconstruction of intra-articular (IA) cartilage and subchondral (SC) bone, the two key tissue types in a joint, in osteoarthritis (OA) patients.

2023 Cottrell Scholar Award (CSA)

Applications due July 1, 2023 | The CSA supports early career tenure-track faculty who hold primary or courtesy appointments in chemistry, physics, or astronomy departments that offer bachelor's and/or graduate degrees. For the 2023 cycle, eligibility is limited to faculty members who started their first tenure-track appointment anytime in the calendar year 2020. Accommodations are made for faculty who have taken maternity or paternity leave, or who have experienced medical conditions that prompted a tenure clock extension.

National Institute of Allergy and Infectious Diseases (NIAID) Bioinformatics Resource Centers (BRCs) for Infectious Diseases (U24 Clinical Trials Not Allowed)

Applications due August 25, 2023 | This Notice of Funding Opportunity (NOFO) solicits applications for the BRC Program that will (1) create and manage integrated knowledgebases to accelerate basic and applied human infectious diseases research, (2) develop advanced innovative bioinformatics technologies for software and tools, (3) offer state-of-the-art bioinformatics expertise for investigators, and (4) respond with cutting-edge bioinformatics in response to emerging needs, outbreaks, and public health emergencies.
**NSF Small Business Innovation Research (SBIR)/ Small Business Technology Transfer (STTR) Programs Phase I**

**Multiple submission windows** | The NSF SBIR/STTR program supports moving scientific excellence and technological innovation from the lab to the market. The program welcomes proposals from many topics and does not have a specific technological. Firms qualifying as a small business concern are eligible to participate.

**NIH Accelerating Behavioral and Social Science through Ontology Development and Use: Research Network Projects (U01 Clinical Trial Not Allowed)**

**Applications due October 3, 2023** | This Notice of Funding Opportunity (NOFO) invites applications to support research projects focused on the expansion of existing or development of new ontologies for behavioral or social science research (BSSR). The research projects must include multi-disciplinary teams of subject matter experts in one or more BSSR fields, as well as ontology related informatics and computational approaches. Projects should address health-related behavioral and social science problems not easily solved without improvement in semantic knowledge structures (e.g., controlled vocabularies, taxonomies, and ontologies).

**NSF Discovery Research PreK-12 (DRK-12)**

**Proposals due November 8, 2023** | The goal of the DRK-12 program is to catalyze research and development that enhances all preK-12 teachers’ and students’ opportunities to engage in high-quality learning experiences related to STEM. Outcomes of projects can include but are not limited to promising, evidence-based products that can be used by others to support the success of all teachers and all students (e.g., curriculum, teaching and research tools, and models of collaboration).

The **Research Development (RD) team** provides proposal development support for early career faculty investigators and proposal teams developing large-scale multi-disciplinary center grants, and training grants. Services include identifying funding opportunities, proposal strategy consultation, coordinating project team meetings, and liaising between your proposal team and OSP. RD also provides funder-specific workshops and trainings. Visit our website for a full list of services.
