UPCOMING EVENTS

**Cornell NSF CAREER Peer-to-Peer Workshop Series**
**July 11th @ 2:00 pm** | Open to Cornell Assistant Professors who plan to submit an NSF Faculty Early Career Development Program (CAREER) proposal this July 2023. During this session, faculty pairs will share and discuss their proposals, provide feedback, and exchange ideas to enhance them. Registration is required, and proposal drafts must be submitted by July 7, 2023.

**NSF Research Synthesis Webinar: The pandemic’s unanticipated effects on STEM teaching and learning**
**July 11th @ 2:00 pm** | Dr. Vanessa Peters, Senior Learning Sciences Researcher from Digital Promise, will present her synthesis of research findings from over 70 NSF awards that addressed the unanticipated effects of the pandemic on STEM teaching and learning.

**Building a Strong, Diverse Talent Pipeline: A Key to Forging Long-Lasting Corporate Partnerships Webinar**
**July 25th @ 1:00 pm** | Industry needs universities to help build a future-ready workforce, but the “how” is often unknown. Hosted by UIDP (the University-Industry Demonstration Partnership), this webinar will focus on best practices and key strategies behind successful
talent programs, including developing experiential learning programs for talent pipeline creation, student engagement by companies beyond recruiting, and more.

**NIH Transforming Discoveries into Products: Maximizing NIH's Levers to Catalyze Technology Transfer Workshop**

**July 31st @ 9:00 am** | NIH will discuss policies and practices that shape biomedical innovation and promote access to NIH-funded discoveries, including its approach to the patenting and licensing of biomedical inventions. The agency’s role in the broader biomedical research enterprise in promoting the application of knowledge to enhance human health will also be discussed.

---

**FUNDING OPPORTUNITIES**

*If you intend to apply to a funding opportunity, please notify your college and/or department research administrators or OSP.*

**DOE University Training and Research for Fossil Energy and Carbon Management**

**Applications due August 7, 2023** | This Funding Opportunity Announcement (FOA) is to solicit and award research and development grants to educate and train the next generation of engineers and scientists by supporting novel, early-stage research at U.S. colleges and universities.

**Thrasher Research Fund Early Career Awards**

**Concept papers due September 12, 2023** | The purpose of this program is to encourage the development of researchers in child health by awarding small grants to new researchers. The goal is to fund applicants who will go on to be independent investigators.

**NCI Advancing Cancer Control Equity Research Through Transformative Solutions (U19 Clinical Trial Optional)**

**Applications due September 14, 2023** | This Notice of Funding Opportunity (NOFO) invites proposals for research centers to advance cancer control equity by stimulating community-engaged, multilevel research interventions that address the impact of social determinants of health (SDOH) on adverse cancer control outcomes.

**NSF Research Experiences for Undergraduates (REU): Sites and Supplements**

**Proposals due September 27, 2023** | The REU program supports active research participation by undergraduate students in any of the areas of research funded by the
National Science Foundation. REU projects involve students in meaningful ways in ongoing research programs or in research projects specifically designed for the REU program. REU projects with an international dimension are welcome.

**NEH Dangers and Opportunities of Technology (DOT): Perspectives from the Humanities**

**Anticipated application deadline October 11, 2023** | The National Endowment for the Arts DOT program supports humanistic research that examines the relationship between technology and society. NEH is particularly interested in projects that examine current social and cultural issues that are significantly shaped by technology.

**DARPA Biological Technologies Broad Agency Announcement (BAA)**

**Rolling submission until June 20, 2024** | This BAA seeks revolutionary research ideas for topics not being addressed by ongoing BTO programs or other published solicitations.

---

**Research Development** services are focused on proposal development support for proposal teams developing large-scale multi-disciplinary center grants, and training grants, as well as tenure-track faculty submitting to early career funding opportunities. The Research Development team also provides funder-specific workshops and trainings.

**Office of Sponsored Programs and Research Development (OSP)**

**Cornell University** | 373 Pine Tree Rd. | Ithaca, NY 14850
