FUNDING OPPORTUNITIES

If you intend to apply to a funding opportunity, please notify your College and/or Department research administrators or the Office of Sponsored Programs (OSP).

Wiley Prize in Biomedical Sciences
Applications due August 31, 2023 | The Wiley Prize in Biomedical Sciences recognizes and fosters ongoing excellence in scientific achievement and discovery. This international award is presented annually and consists of a $50,000 prize.

PHS 2023-2 Omnibus Solicitation of the NIH, CDC and FDA for Small Business Innovation Research Grant Applications (Parent SBIR [R43/R44] Clinical Trial Not Allowed)
Upcoming deadline September 5, 2023 | This Notice of Funding Opportunity (NOFO), issued by the National Institutes of Health (NIH), the Centers for Disease Control and Prevention (CDC), and the Food and Drug Administration (FDA), invites eligible U.S. small businesses to submit Small Business Innovation Research (SBIR) grant applications.

DOE Storage Innovations 2030: Technology Liftoff (SI Liftoff)
Concept Papers due September 15, 2023 | The objective of the SI Liftoff FOA is to enable long-duration energy storage technologies through durable research partnerships. It will...
enable collaborative partnerships of two or more entities with a focus on one or several energy storage technologies. The selected technology or technologies must have a pathway to cost-effective, grid-scale, long-duration energy storage.

**EPA Sustainable Materials Management Grants**

**Applications due September 15, 2023** | Sustainable Materials Management (SMM) is a systemic approach to using and reusing materials more productively over their entire life cycles. This RFA addresses the following programmatic priorities: Sustainable Management of Food, and Sustainable Packaging. Fundable projects must involve research, investigations, experiments, trainings, demonstrations, surveys, public education programs and/or studies that address strategies to reduce food and/or packaging waste, primarily through source reduction. Laboratory research projects will not be funded. Projects must benefit States or communities within EPA Region 2 (New York, New Jersey, Puerto Rico, Virgin Islands, eight Indian Nations).

**DOD 2024 Vannevar Bush Faculty Fellowship (VBFF) Program**

**White Papers due September 29, 2023** | The VBFF Program supports innovative basic research within academia, as well as opportunities intended to develop the next generation of scientists and engineers for the defense workforce. This FOA seeks distinguished researchers for the purpose of conducting innovative basic research in areas of interest to the DoD and fostering long-term relationships between the VBFF Fellows and the DoD.

**ANNOUNCEMENTS**

**DOE Plan to Ensure Free, Immediate, and Equitable Access to Federally Funded Research**

The Department of Energy recently released a plan to ensure its federally funded research is more open and accessible to the public, researchers, and journalists. With 17 national laboratories and scores of programs that fund university and private research, DOE directly supports thousands of research papers per year. When this plan goes into effect, those findings will be available immediately and at no cost. Learn more on the [Public Open Access Plan website](#).

**Research Development** services are focused on proposal development support for proposal teams developing large-scale multi-disciplinary center grants, and training grants, as well as tenure-track faculty submitting to early career funding.
opportunities. The Research Development team also provides funder-specific workshops and trainings.
