UPCOMING EVENTS

USDA NIFA FAQ Session: AFRI Rapid Response to Extreme Weather Events Across Food and Agriculture Systems

November 2 at 2:30pm ET | Meet the USDA team and learn more about the Agriculture and Food Research Initiative (AFRI) Rapid Response to Extreme Weather Events Across Food and Agricultural Systems (A1712) program area priority.

FUNDING OPPORTUNITIES

If you intend to apply to a funding opportunity, please notify your College and/or Department research administrators or the Office of Sponsored Programs (OSP).

NY Health Foundation 2024 Special Projects Fund

LOIs due September 12, 2023 | Funding will support an organization’s efforts to replicate and expand successful project models, broaden the scope of its work at a local, regional, or statewide level; deepen knowledge in the health field; improve health care practices; and/or address a timely health-related issue affecting a significant number of individuals living in NY State.
**ACLS Fellowship Program**

**Applications due September 28, 2023** | The American Council of Learned Societies (ACLS) invites research proposals from untenured scholars in all disciplines of the humanities and interpretive social sciences. The ultimate goal of the project should be a major piece of scholarly work by the applicant, which can take the form of a monograph, articles, publicly-engaged humanities project, digital research project, critical edition, or other scholarly resources.

**NIGMS Maximizing Investigators’ Research Award (MIRA) (R35 Clinical Trial Optional)**

The MIRA provides support for a program of research in an investigator's laboratory that falls within the mission of NIGMS. The goal of MIRA is to increase the efficiency of NIGMS funding by providing investigators with greater stability and flexibility, thereby enhancing scientific productivity and the chances for important breakthroughs.

- [MIRA for Early Stage Investigators (ESI) PAR 23-145](#) – next application deadline October 3, 2023
- [MIRA for Established/New Investigators PAR 22-180](#) – next application deadline January 16, 2024

**NCI Academic-Industrial Partnerships (AIP) to Translate and Validate In Vivo Imaging Systems (R01 Clinical Trial Optional)**

**Upcoming application deadline October 5, 2023** | The National Cancer Institute (NCI) intends to stimulate translation of scientific discoveries and engineering developments in imaging, data science and/or spectroscopic technologies into methods or tools that address contemporary problems in understanding the fundamental biology, potential risk of development, diagnosis, or treatment of cancer. Each application to this NOFO will feature the formation of a strategic alliance of academic and industrial investigators who work together as partners to identify and translate a technological solution for mitigation of a cancer (or other disease-related) problem.

**Global Cornell Call for Submissions: Joint Research Seed Grants**

**Applications due October 6, 2023** | Global Cornell is offering faculty seed grants in collaboration with Global Hubs partners. Apply for funding to explore potential research collaborations with colleagues at Hubs universities. Register for an info session. The first info sessions are on Tuesday, Aug. 29 with Chulalongkorn University at 8:00 AM and Queen Mary College London at 9:00 AM.

**NSF Smart Health and Biomedical Research in the Era of Artificial Intelligence and Advanced Data Science (SCH)**

**Proposals due November 9, 2023** | The purpose of this interagency program solicitation is
to support the development of transformative high-risk, high-reward advances in computer and information science, engineering, mathematics, statistics, behavioral and/or cognitive research to address pressing questions in the biomedical and public health communities.

ANNOUNCEMENTS

Cornell to roll out a new online RCR course in Fall 2023
Developed specifically for Cornell researchers, the new Responsible Conduct of Research (RCR) course includes video (less than 30 minutes) and additional reading to do in our own time. Please watch for further communications and deadlines. Note that completion of Cornell’s RCR course is a key requirement for all Cornell researchers—including, but not only, when research sponsors also require this certification.

Research Development services are focused on proposal development support for proposal teams developing large-scale multi-disciplinary center grants and training grants, as well as tenure-track faculty submitting to early career funding opportunities. The Research Development team also provides funder-specific workshops and trainings.
