Limited Submissions are opportunities in which the sponsor limits the number of nominations or proposals (or sometimes other types of submissions like Concept Papers or Letters of Intent) that Cornell University may submit to a particular program. When this occurs, an internal selection process (typically an internal competition) is coordinated.

For further information about the internal process, answers to FAQs, and more, visit the Cornell Limited Submissions website. Please contact Limited Submissions if you intend to apply to a limited submission opportunity not listed below, missed an internal competition deadline, or have any questions. Unless otherwise noted in a competition announcement, internal competition deadlines are for 5:00 PM, and applications must be submitted via the competition web portal.

NOTE: Weill Cornell Medicine has its own internal competitions for limited submissions. WCM investigators, please contact Florencia Marcucci in the WCM Office of the Research Dean.

Announcements

- **ETH Zurich Materials Research Prize for Young Investigators:** ETH Zurich has announced that its next nomination deadline will be in May 2024. Prospective Cornell nominees/nominators may not submit nominations/proposals to ETH without first participating in Cornell's internal competition and review process. An internal competition will be announced in the future.

New Competitions

**Mellon Foundation 2023 New Directions Fellowships**

**Internal deadline: September 15.** New Directions Fellowships assist faculty members in the humanities and humanistic social sciences who seek to acquire systematic training outside their own areas of formal expertise.
National Cancer Institute (NCI) Predoctoral to Postdoctoral Fellow Transition Award (F99/K00 Clinical Trial Not Allowed)

**Internal deadline: September 18.** The award will facilitate the transition of talented graduate students into successful cancer research postdoctoral appointments and provide opportunities for career development activities relevant to their long-term career goals of becoming independent cancer researchers.

Gordon and Betty Moore Foundation 2024 Inventor Fellows

**Internal deadline: September 25.** The Inventor Fellows program supports scientist-inventors at a critical prototyping stage to capture opportunities that otherwise might be missed, and seeks to provide freedom and support to promising inventors with the most compelling ideas to pursue creative and disruptive innovations. The foundation’s three main areas of interest are science, environmental conservation, and patient care.

National Science Foundation (NSF) Strengthening the Cyberinfrastructure Professionals Ecosystem (SCIPE)

**Internal deadline November 10.** The overarching goal of this solicitation is to democratize access to NSF’s advanced cyberinfrastructure (CI) ecosystem and ensure fair and equitable access to resources, services, and expertise by strengthening how Cyberinfrastructure Professionals (CIP) function in this ecosystem.
