Limited Submissions are opportunities in which the sponsor limits the number of nominations or proposals (or sometimes other types of submissions like Concept Papers or Letters of Intent) that Cornell University may submit to a particular program. When this occurs, an internal selection process (typically an internal competition) is coordinated.

For further information about the internal process, answers to FAQs, and more, visit the Cornell Limited Submissions website. Please contact Limited Submissions if you intend to apply to a limited submission opportunity not listed below, missed an internal competition deadline, or have any questions. Unless otherwise noted in a competition announcement, internal competition deadlines are for 5:00 PM, and applications must be submitted via the competition web portal.

- **NOTE:** Weill Cornell Medicine has its own internal competitions for limited submissions. WCM investigators, please contact Florencia Marcucci in the WCM Office of the Research Dean.

## Announcements

- **NIH Biomedical Research Facilities C06 PAR-23-306:** Institutions may submit no more than one application. An application for Cornell University is being prepared by senior leadership. There will not be an internal competition.

## New Competitions

**Agilent Early Career Professor Award (AECPA) 2024**

**Internal deadline: December 4.** The Focus Area for the 2024 AECPA is “Contributions to environmental sustainability through development of green analytical technologies, methods, or laboratory working environments.” Applicants must be assistant professors in their first tenure-track position who have completed their PhD or MD residency within 12 years of the award year.
NIH National Cancer Institute (NCI) Pathway to Independence Award for Outstanding Early Stage Postdoctoral Researchers (K99/R00)

**Internal deadline: December 4.** This NCI program is designed for postdoctoral fellows with research and/or clinical doctoral degrees who require no more than 2 additional years of mentored research training and career development (K99 phase) before transitioning to the independent stage (R00 phase) of the program. Scientific areas: Cancer Data Science, Cancer Control Science, Molecular/Precision Cancer Prevention, and Other Cancer Research.

G. Harold and Leila Y. Mathers Foundation Grants - Spring 2024 Cycle

**Internal deadline: January 3.** The Mathers Foundation primarily supports basic science, ideally with potential translational applications. Immunology, microbiome, genomics, structural biology, cellular physiology, neuroscience, etc., are some noteworthy examples of current research support.

### Upcoming Federal Programs

**INTERNAL DEADLINE**

<table>
<thead>
<tr>
<th>Date</th>
<th>Program Description</th>
</tr>
