Add a New Organization-Approved Role - Principal Investigator PI/Co-PI
To work on National Science Foundation (NSF) proposal and award activities in Research.gov or via Grants.gov, a Principal Investigator (PI)/co-Principal Investigator (co-PI) must have an organization-approved Investigator role. After requesting a role, your organization’s Administrator will receive the request electronically to approve or disapprove it. To request an organization-approved role, you must sign into Research.gov and select the “My Profile” link located on the top right of the screen. Select the “Add a New Role” option from the left navigation bar.

Add a New Organizational Role – Proposed Postdoctoral Fellow
To work on National Science Foundation (NSF) proposal and award activities in Research.gov or via Grants.gov, you must have an organizational Investigator role. Registering for a Proposed Postdoctoral Fellow organizational role creates an organization in Research.gov, but you do not need to register the organization with NSF. You will become the Administrator of the newly created organization; however, other users cannot request organizational roles or affiliate themselves with the organization. You do not need to register the newly created organization with SAM.gov or obtain a UEI.

To request an organizational Investigator role, you must sign in to Research.gov and select the “My Profile” link located on the top right of the screen. Then select the “Add a New Role” option from the left navigation bar.
