If you intend to apply to a funding opportunity, please notify your unit research administrators and office of sponsored programs/research.

**UPCOMING EVENTS**

**Weill Institute REAP Workshop Series: Targeted Proteomics**  
**February 13 @ Noon** | The Weill Institute invites you to join us for “Quantifying Proteins, Peptides, and PTMs with Maximum Sensitivity: A Workshop on Targeted Proteomics” presented by Will Comstock, Graduate Research Assistant in the Smolka Lab. Lunch will be provided.

**NSF CAREER Resubmissions: Working with Reviewer Feedback**  
**March 4 @ Noon** | NSF's CAREER program allows faculty to submit proposals up to three times pre-tenure. Understanding reviewer feedback is vital in the revision and resubmission process. Attend this Cornell faculty panel workshop for tips and insights that can help you use your time effectively. Lunch will be provided. The last day to register is February 29.

**Get to Know DARPA BTO Webinar**  
**March 7 @ 1:00pm** | The Defense Advanced Research Projects Agency (DARPA) Biological Technologies Office (BTO) is sponsoring an outreach event for university researchers. The discussion will highlight current focus areas and how best to work with the agency. Deadline to register is March 1. Use the following information to login to registration site: Username = DARPA, P/W = BTO2024!
Hanover Research: Navigating the Grant Review Processes (and Becoming a Reviewer)

March 28 @ Noon | This session will cover the process that funders use to review, evaluate, and select grant awards. Common conventions in the grant review process, funder-specific insights, and the process for becoming a grant reviewer will be discussed.

INTERNAL FUNDING OPPORTUNITIES

Global Grand Challenge: The Future
Letters of Intent due February 26, 2024. Full proposals due May 6, 2024 | Global Cornell grant opportunity for Cornell faculty: Up to $150,000 per year for two years for interdisciplinary teams to develop a roadmap to a better future, and up to $20,000 per year for two years to develop future-minded Cornell curriculum.

EXTERNAL FUNDING OPPORTUNITIES

Harold W. McGraw Jr. Prize in Education Call for Nominations
Nominations due March 1, 2024 | The McGraw Prize recognizes outstanding individuals who have dedicated themselves to improving education and whose accomplishments are making a difference.

NSF Atmospheric & Geospace Sciences Community Instruments and Facilities (AGS-CIF)
Letters of Intent due March 15, 2024 | The CIF solicitation is intended to expand the suite of instruments and facilities available to the atmospheric science community supported by NSF. Proposals funded will promote research, education, and outreach in areas currently supported by programs in the Atmosphere Section of the Division of Atmospheric and Geospace Sciences (AGS).

DOE FY24 Energy and Emissions Intensive Industries FOA
Concept Papers due March 19, 2024 | This FOA focuses on subsector-specific decarbonization approaches for the highest emitting and most challenging to address industrial subsectors. This FOA will focus on applied R&D and pilot demonstration for the highest GHG-emitting subsectors, specifically chemicals and fuels; iron and steel; food and beverage; cement and concrete, asphalt pavements, and glass; and forest products.

DoC National Institute of Standards and Technology (NIST) Center of...
Excellence in Climate Measurements (CECM) Program
Applications due April 1, 2024 | NIST seeks applications for the creation of an interdisciplinary Center of Excellence in Climate Measurements that coordinates activities to advance efforts to establish national standardization of methods and metrics for forecasting consequences of climate trends at scales important to communities across multiple geographies and over time.

NSF Civic Innovation Challenge (CIVIC)
Stage 1 proposals due May 1, 2024 | CIVIC is a research and action competition that accelerates the transition to practice of foundational research and emerging technologies into communities through civic-engaged research. A CIVIC project should address community-challenges identified via tight collaboration between civic and academic partners, with the goal of achieving concrete impacts in the communities.

National Medal of Science Call for Nominations
Nominations due May 5, 2024 | The National Medal of Science is accepting nominations for individuals deserving of special recognition by reason of their outstanding contributions to knowledge in the physical, biological, mathematical, engineering, or social and behavioral sciences, in service to the Nation.

OSP Research Development services are focused on proposal development support for teams developing large-scale multi-disciplinary center grants and training grants, as well as tenure-track faculty submitting to early career funding opportunities. The Research Development team also provides specialized training, including agency-specific workshops.
